This charger burned a hole in my couch and fried my kindle fire. If you like your device working and not on fire do not buy this.

☆☆☆☆☆ **Returned Because of High Pitch Squeal**, April 26, 2013

When I plug an iPhone 4S into the iDevice charging port, the charger makes a high pitched squealing noise. That behavior, combined with reviews by other buyers of this item catching on fire, convince me to return it.

☆☆☆☆☆ **THIS CHARGER IS NOT UL LISTED ** DO NOT USE ****, November 14, 2012

Amazon Verified Purchase (What's this?)

This review is from: **PowerGen White 2.4-Amp (12 Watt) Dual USB Wall Charger w/Swivel Plug Designed for Apple and Android Devices (Wireless Phone Accessory)**

I was excited to buy this charger because it was cheap and had really good reviews on Amazon. However after receiving it I noticed two important things.

First, it is NOT UL LISTED. This means I can't use it. I won't risk causing a fire - any non-UL charger scares me and should scare you!

Second, it can't charge my iphone and ipad at the same time. Instead the second port is for "non listed devices" - not sure what that means but it's a useless port to me.
