### **US Payments Approval**

First, you have to wait until your account approval email is sent to you.

The next step is to send an email to [USPaymentService@payoneer.com](mailto:USPaymentService@payoneer.com).

Use "US Payment Approval Request" as subject line.

For the message, you can type in:

*"I would like to apply for US Payment Approval"*

Once sent, they will reply with an email along with questions that they would like you to answer.

### **Pointers on Answering the Questions:**

You may feel Payoneer is giving you a bad time with these questions, but don't worry, they just want to find out where the money you're going to deposit will be coming from.

They are glad that you applied to them with a brand new Amazon Seller account. However, you can also use information from an existing CJ.com, ClickBank, Shareasale and other accounts, but they will be happy with a new Amazon Seller account and it is recommended to just use that.

Here are some tips to answering the questions:

1. What services or products do you offer (include website URLs if applicable)?

Answer: Tell them you have just opened an Amazon Seller account. Explain to them that you will be only selling your product on Amazon and not through any other website.

2. Please provide us with direct web links showing some examples of your products, services and other online activity. Please make sure the links include mention of

your name or shows your relation to the product/service.

Answer: Tell them that you have not yet listed your product, but you have already requested inventory or you are preparing to order inventory from your supplier. Try to find a similar product on Amazon, copy it's URL and include the URL in your reply telling them that your product will be similar with it, but it will be your product with its own brand.

3. Please send us a screenshot of your online account with the company you wish to receive payments from (e.g.: PayPal, Amazon, Skrill, etc.). The screenshot should include your name and account balance.

Answer: Before sending them the screenshot of your account, inform them that your Amazon Seller account is a brand new account.

4. Please provide a copy of a government issued photo ID.

Answer: You can either send your driver's license, passport or national ID. An international passport is preferred if your ID is in a different language. Scan or take a photograph of your ID and then attach it to your reply.

5. Please send both sides of the document where relevant. We prefer jpeg format under 1MB. Note: If you have already provided us with your ID copy, please skip this requirement.

Answer: You should be straight forward. Attach a copy/photo of your passport.

From here, you may add one or two short paragraphs about your experience about IM and that you have just started a course on selling physical products via Amazon.

## Speeding Up The US Payments Service (USPS) Approval Process

Allow 72 hours prior to sending your application details.

1. Visit <http://community.payoneer.com/>
2. Click on "Create Account"

3. You will see four boxes with asterisks next to them, fill those boxes out.

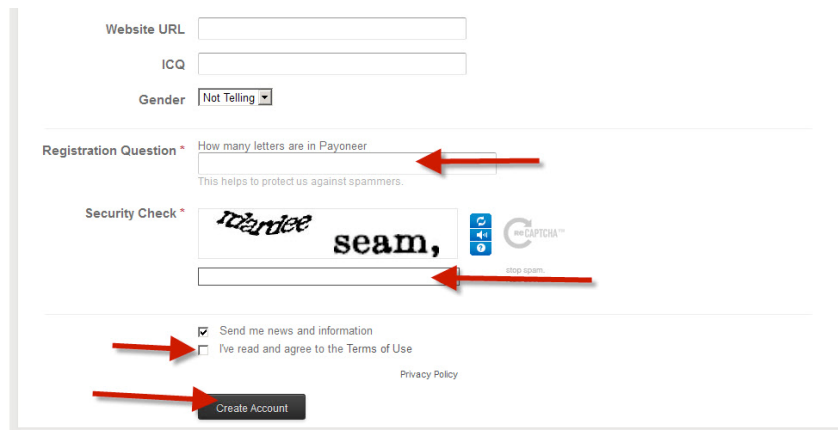

**Note:** Use the same email address you used when you applied for your Payoneer account.

A screenshot of the Payoneer Community Forums Registration Form. The form is titled "Join Our Community" and includes a progress bar showing "Step 1: Your Account" and "Step 2: Confirmation". The form contains several fields: "Username" (with a green checkmark and a red arrow), "E-mail Address" (with a green checkmark and a red arrow), "Password" (with a red arrow), and "Confirm Password" (with a red arrow). Below these are fields for "Website URL", "ICQ", and "Gender" (with a dropdown menu set to "Not Telling"). A red arrow also points to the "Create Account" button at the bottom right.

4. Fill in the captcha and tick the box saying you agree to the terms.

Click on “Create Account” at the bottom.

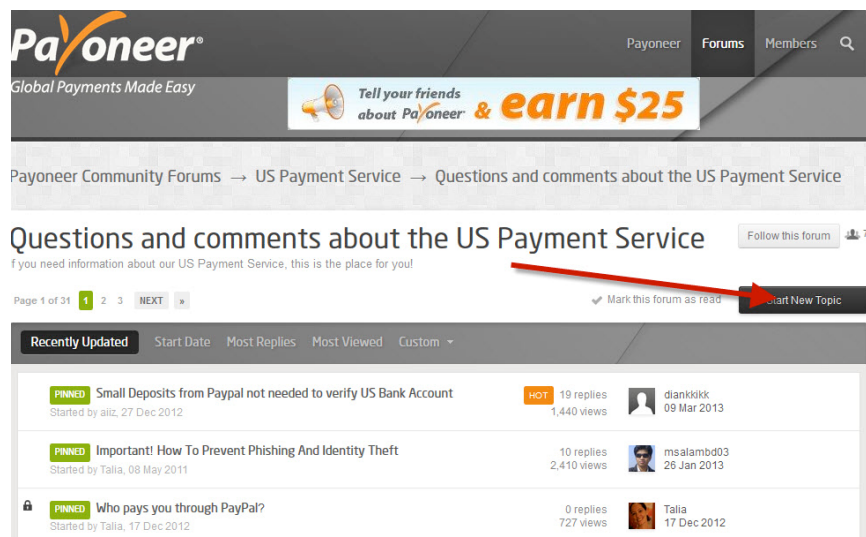

You will then have to verify your email address with them.

The image shows a registration form for Payoneer. It includes fields for Website URL, ICQ, and Gender (set to Not Telling). A Registration Question asks for the number of letters in 'Payoneer'. A Security Check section features a CAPTCHA with the text 'seam,' and a checkbox for 'Send me news and information'. A 'Create Account' button is at the bottom. Red arrows point to the CAPTCHA input, the 'Send me news and information' checkbox, and the 'Create Account' button.

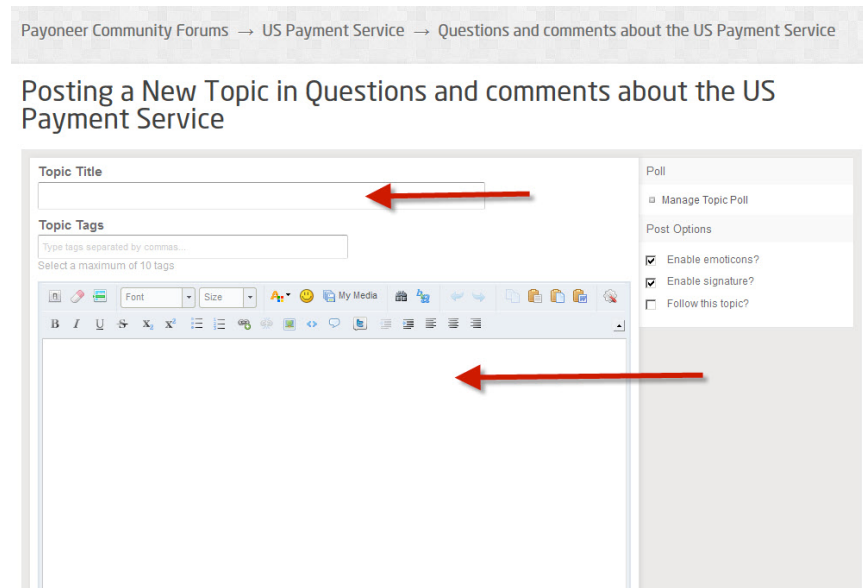

5. After verifying your email, sign in and proceed to:

<http://community.payoneer.com/index.php?/forum/10-questions-and-comments-about-the-us-payment>

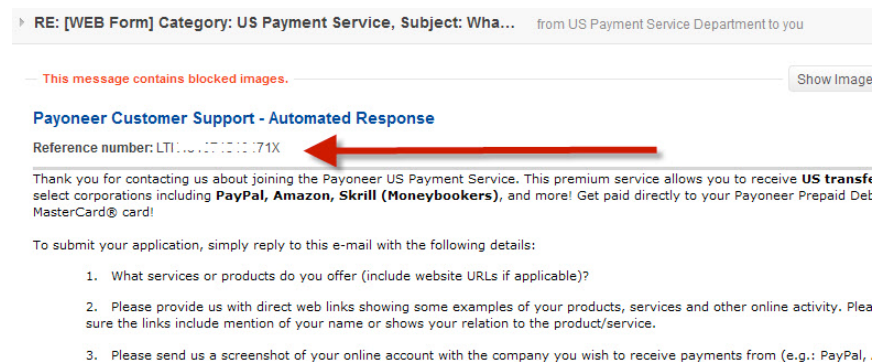

The image shows the Payoneer Community Forums page. The header includes the Payoneer logo and navigation links for Payoneer, Forums, and Members. A banner promotes earning \$25 by telling friends about Payoneer. The main heading is 'Questions and comments about the US Payment Service'. Below this, there are forum threads listed with details like 'Small Deposits from Paypal not needed to verify US Bank Account' and 'Important! How To Prevent Phishing And Identity Theft'. A red arrow points to the 'Start New Topic' button.

6. Use a topic tile like "USPS Approval Help" and in the body, state that you have applied for USPS, but have not yet received a reply and ask if someone can help. It is important that you add the ticket number for your approval request.

- To get your ticket number, go to the email you received after requesting approval for USPS. The reference number should look like this "*Reference number: LTK400000000071X*". Make sure you add this ticket number at the end of your post in the forum.

8. You should be able to get a response in the forum post within 24 hours, since the admins on this forum are fairly active.

## What To Do If You Do Not See A Reply In The Forum After 48 Hours

Click on "Reply to this topic" and just say something like"

*"Can someone please check for me that my application is being looked at  
LTK490000000001X"*

Normally, you will get a reply stating "I have passed on your ticket. You should be getting an update within 48 hours."

Note that this does not assure acceptance. It just makes the process faster.
